The Hoffman Center Art Gallery is proud to announce the second of our “Hoffman Happy Hour with Artists” featuring Ron van Dongen. Ron's exhibition will feature his unique photographs of our local funghi, seascapes and flora. We are very fortunate to have this opportunity to dedicate our entire gallery to van Dongen's intimate and seductive photographs. How the artist arrives at these images is as fascinating as the work itself. Ron's work has been featured by top galleries around the world and has been the subject of 13 Monograph publications. van Dongen's unique photographs are also included in a number of important collections - both public and private.

These events will be scheduled on the third Wednesday of the month and will last approximately 1 hour. We hope you will visit the gallery in the meantime to see the art in person. Gallery is now open Thursday – Sunday from 1PM to 5PM.
